

WOMEN SIZE GUIDE

How to Measure

Height

Stand next to a wall, put a ruler horizontally on your head and mark at the point where the ruler reach the wall, measure the distance from the floor to the mark.

Neck

Just below your adam's apple, take a skin tight measurement around your neck.

Sleeve

With arm relaxed at side and elbow slightly bent, measure from point of shoulder, and down outside of arm past elbow to wrist.

Chest

This measurement is taken just below to your breast under the arms, closely around the body.

Breast

This measurement is taken at the fullest part of your chest (across your nipples) under the arms, closely around the body.

Waist

Measure around the body at your natural waist level, normally 6 cm below your navel.

Hips

Measure around your hips and buttocks at their widest point, make sure the tape is not restrictive.

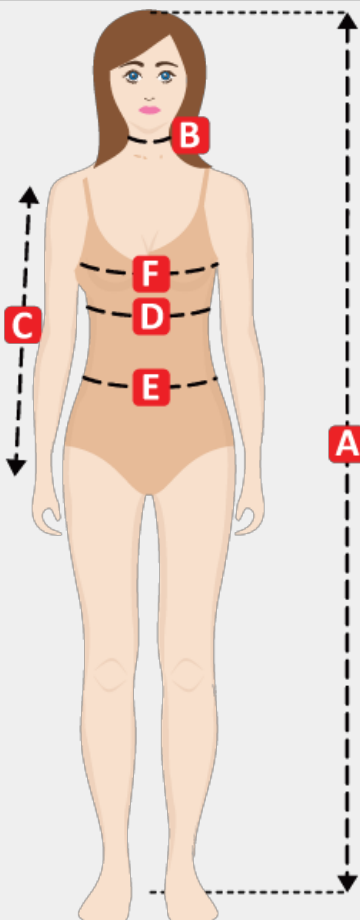

Inseam

Keeping the measure tape taut, measure from the lowest part of the crotch, down to the ankle bone.
